RUSSIAN RETREAT CUT OFF.

The Japanese Generals Appear to have Captured the Railway North of Mukden, and Enclosed the Russian Forces in a Trap from which only a Fragment at least can Escape.

Bulletin Special.

London, March 10, 8.30 p.m.—After ten days' desperate fighting victory has finally inclined to the Japanese, and the bloodiest battle in the world's history ends in irretrievable disaster to the Russian arms. Kuroki, on the right, has captured Fushan, and thus General Rennan-kampff's corps is definitely cut off and must surrender. General Nodzu marched into Mukden at 10 a.m. and captured enormous quantities of supplies, ammunition and guns, besides 2000 prisoners. In the meantime Generals Nogi and Oku have swept on to the north and east and appear to have straddled the railway south of Tie Pass, thus cutting off the bulk of Kuroki's army. The whole Russian forces are now disintegrated with no possible chance of extrication, and it is possible the whole 300,000 may surrender. Isolated corps are still fighting desperately to the northeast of Mukden in an effort to cover their retreat. Kuroki's capture of Fushan cuts off the only alternative retreat by a light railway running from the coal mines there to Tie Pass.

All the afternoon papers here confidently predict that this disaster must end the war. The Russians estimated losses are 10,000 dead since midnight, and the slaughter in the rout and pursuit is indescribable. Only the complete exhaustion of the Japanese armies may save the bulk of the Russian field army.

Tokio, March 10, 8 p.m.—Field Marshall Oyama's telegraphs as follows, under today's date.

"We occupied Mukden at ten o'clock this morning. Our surrounding movement which we have been engaged in for some days past has now completely succeeded. The fiercest fighting continues at several places in the vicinity of Mukden. We captured a great number of guns, an enormous quantity of arms, ammunition, provisions, and other war supplies. There is at present no time to investigate the number of these."

St Petersburg Anxious.

Bulletin Special.

St. Petersburg, March 9.—The great question now, and the one which the general staff burned its lights over late in the night is whether Field Marshal Oyama has entangled the Russians in his net sufficiently to prevent successful retreat to Tie Pass. Gen. Rennan-kampff's forces on the eastward admittedly are in great danger of being cut off and a considerable force of Japanese appears to be operating on the Russian right well towards Tie Pass. If the Japanese succeed in reaching the railroad and interrupting traffic, if only for a few hours it may have the greatest consequences for General Kuroki's army, who is now engaged in a literal race with the Japanese to reach a natural defensible position forty miles northward. Thus far he has stood off all attacks directed against the flanks of his army and holds the way of retreat open. He undoubtedly was forced to abandon a number of siege guns on his Shakhe position, but if he succeeded in turning over the army intact with the principal portion of his artillery train to his successor, the Russian cause will be by no means desperate, for Oyama will again have missed his quarry, and a comparatively barren victory will again have been purchased at an enormous cost of life. All reports indicate that the Japanese were utterly reckless of sacrifice, making attack after attack, especially on the centro and westward against machine guns and infantry fire which literally mowed down the advancing columns, making human flesh so cheap that, at times the survivors could bastion themselves behind piles of corpses.

A high infantry official said last night that the general staff had had enough of a general whose interpretation of a victory was a successful retreat; that Fabian tactics are well enough in their way, but that Kuroki went beyond those of Fabian and neglected to make account of opportunities for counter strokes.

SATURDAY, MARCH 11th, 1905.

PARLIAMENT

Ottawa, March 2nd, 1905.

No further developments have occurred since yesterday in regard to the Autonomy Bill. There are rumours of dissatisfaction on the part of the Minister of Finance, but so far he has taken no action and no definite announcement is forthcoming. There is a general feeling that the action of the Minister of the Interior is of the most serious nature, and there is said to be a desire on the part of the Government to compromise in regard to the provisions to which he objected so strongly.

The Bill is not expected to come up in the House until Tuesday or Wednesday of next week, but it is thought that when it does it will have undergone important modifications in the school clauses. The other features of the bill seem to pass without criticism from any source.

The routine business of Parliament attracts little attention in view of the overshadowing possibility of a Cabinet crisis. Considering the very confidential relations which have hitherto existed between the Prime Minister and the ex-Minister of the Interior the latter's resignation is all the more remarkable and gives added weight to the position which he takes. So far he has made no announcement as to what his future attitude will be. It is thought, however, that if the Bill is modified he will support it and the Government at any rate throughout the present session.

PRAISE FOR THE CANADIAN WEST.

Owing to the great amount of interest that is being taken in Western Canada, it is well to be informed of some of the facts that are bringing about the great emigration from portions of the United States.

The Canadian Government has authorized agents at different points, and the facts related in the following may be corroborated on application. At the same time they will be able to quote you rates and give you certificates entitling you to low rates on the different lines of railway. The following letter copied from the North Bend (Neb.) Eagle is an unsolicited testimonial, and the experience of Mr. Auton is that of hundreds of other Americans who have made Canada their home during the past seven or eight years:

"I presume some may be interested to know how we have progressed this year in the Canadian Northwest. We have no complaint to offer. We have had a good year. Crops were good, and we had a delightful season. I threshed from my place 8,650 bushels of grain. My oats made 65 bushels per acre and weighed 42 1/2 pounds per bushel. My wheat made 31 1/2 bushels per acre and is No. 1 quality. My barley made about 30 bushels of good quality. My crop is a fair average of the crops in the Edmonton district.

"All crops were good here this season. Potatoes the finest I ever saw, and all vegetables adapted to the climate. We have had a very fine fall, but no exception to the rule as the fall season is, I think, the most pleasant of the year. We have had no snow yet (November 9), and have been plowing and working the land preparing for an early seeding next spring. Last night the mercury dropped lower than any previous night this fall, and this morning there is a crust of frost on the fields sufficient to prevent field work. No doubt many would imagine that Alberta had put on her winter overcoat before this, and that the people were wrapped in furs, but it is only a question of time when this country will not be looked upon as an iceberg, but country fit for the best of mankind to live in.

"We are now assured of a transcontinental railway, which is to be built to the Pacific during the next five years. The Canadian Northern road is graded to within seventy-five miles of Edmonton. It comes from Winnipeg and will reach us next summer, so with one railway already at hand, the second to reach us in less than a year, and the third to penetrate our city and open up this country to the west across the Rockies to the coast within five years, we surely have reason to believe that the country is progressing.

Very respectfully,

"L. J. AUTON."

A BIG ROOMY SHIRT

No other workman's shirt is made so big or comfortable or so strongly as the H.B.K. Big Shirt.

Not a skimpy, factory-made, cheap shirt but a shirt made of honest material and lots of it. As big and easy fitting as the ones your mother used to make with three yards and a half of goods. Every H.B.K. Big Shirt has three and a half to three and three quarter yards of material.

Ample room under the arm-pits, broad and spacious on the shoulders, full and long bodied, big sleeves, an easy wearing shirt and a long wearing shirt.

Every shirt is branded with this brand and guaranteed by the makers.

BULLETIN CO. Ltd.

Our city has good water but good water can be made better, and Ross Bros. Ltd. have the thing to do it with. Have you seen their "Noxall Filter." It is the simplest Filter on the market, the most thorough and by a long ways the cheapest. Any family can afford one and they are made either for pressure to attach to your city water tap or gravity to filter from a pail or crock.

Following is one of the many testimonials that speak of the work done by these Filters:—

The Duquesne Chemical Laboratory.

Analatical Chemists and Chemical Engineers, Standard Bldg.,
531 Wood St. Pittsburgh, Pa., April 12, 1897.

GENTLEMEN:—Following is the report on the samples of water taken from the regular city supply, and also after it had passed through the Tripoli filter. Two filters were tested in this manner one having just been started and the other having been in use four months. The chemical analysis, made to show animal and vegetable pollution, includes the amount of ammonia, albuminoid ammonia and oxygen required to completely destroy such pollution. The bacteriological analysis is a count of the total number of living microbes in ten ordinary drops of water. This test was repeated in duplicate in case of the filtered samples. The results obtained on analysis as follows:

Water from hydrant.	From old filter.	From new filter.
Ammonia	0.03	0.02
Albuminoid Ammonia	0.20	0.09
Oxygen Consumed	1.64	0.56

The figures represent parts of the impurities in one million parts of water. On cultivation, the hydrant water showed 890 bacteria in ten drops. That from the old filter 0, 2 and 4 in three tests, and from the new filter 3, 3 and 7. The above shows that the number of living microbes present has been reduced 99.6 per cent; the ammonia is reduced 39 per cent; the albuminoid ammonia 57 per cent, and the oxygen consumed 64 per cent. by passing through the filter, making the originally very bad water equal in cleanliness and purity to the best spring water. These results cannot be surpassed by any system of filtration with which we are familiar.

Respectfully submitted,

W. E. GARRIGUES CHIEF CHEMIST AND MANAGER.
99.6 per cent. of living microbes eliminated by use of the filter.

The price is from \$3.00 up, the \$3.00 one fits on to any house tap and can be removed in two seconds. They are stone Filters and the stones can be cleaned as easily as any glass tumbler or delf cup. The Gravity filters are only \$4.50 and readily filter water from a pail into any other vessel placed to receive the filtered water. They are small and can be easily packed in a very small space to carry from place to place.

The above is correct cut of the Tap Filter, showing it in operation

The above is correct cut of the Gravity Filter, showing it in operation.

These Filters can only be had in Alberta from ROSS BROS. who are Sole Agents. The Trade supplied.

ROSS BROTHERS, Limited.

THE SMALL CONTRACTOR

Editor Bulletin:

Sir:—It is a matter of considerable importance to the hired man, the petty or small contractor, the farmer and the community at large, that the methods of certain, and I regret to state, a very great number of persons employing labor in this part of Canada, should be made known to the public. In stating from personal experience of my own and other young men who have been victimized by not being paid for labor done, I speak of facts that can be vouched for.

The following cases are samples, and it is a matter for regret that a letter such as this in the columns of a public newspaper cannot contain the names of the petty contractors, or rather people that never mean to pay—so that it may be a warning to others.

A small contractor hires four "green" men at twenty dollars per month to cut logs in the bush, they take the job and are at the work perhaps a week, when he makes them the offer of cutting the log by contract and says they will make more money than by working by the month, besides as they have been taken on a "weeks trial" and at a new work to them they have no option but to take the contract or their blankets and themselves back to town. Now this contractor himself knows perfectly well that little more than bare board can be made on the work, and by these men paying for their board he comes out clear, and his grocery bill largely met by his profits on meals. Then when the work is done and the little money coming, due from a winter's work is wanted, the small contractor has no money to pay! Naturally the reader will say: then seize his lumber! But this by some fairy wind has been made his brother's sole property: and with his teams, sleighs, etc., etc., the same statement and everything he possesses. This man has been doing this sort of thing for the last ten years, report in this neighborhood states and he has got on so far with only a cut eye and the sheriff appearing on the scene.

A farmer owes one man fifty dollars for two months work since last year and the hired man has applied to him till he is tired and "broke" and the only thing he can get is to take the offer of half the money due, and get more work to keep him in board. Needless to say he hasn't got the twenty-five dollars even now. Cases of this sort by the dozen might be cited if space permitted, but this is sufficient.

This Sir, Editor you will admit is pretty hard on men arriving in this country and willing to work, the only fault with them is that they are too honest, and that when a contractor makes an offer to them of labor they having been used to fair dealings at home judge the man who employs them as an honest man too. While he dubs them "green" and "tenderfoots" simply because they took him or an honest man and found him a rogue.

How many men have been staying in town all the winter and refusing work because they know this employer wasn't good for the pay and they had been victimized before! Simply hundreds Sir, and yet these men are blamed for remaining idle! How many men stopping in town cannot get out because their belongings have been seized by the boarding house proprietor and they are waiting until that small contractor gets out of the hole and they will get paid and thus release their property by paying their bill at the boarding house or hotel! Scores Sir!

It is one great boast of the laborer in Canada that he is worth a good wage, and what use this statement to him when he can't even get half that good wage which he has worked hard for! Of course it may be said and justly too that big towns are over crowded in winter time and small contractors can give and extract any terms they choose, simply because the men have no choice, but this can only be charged to the Government in inducing laborers to come to Canada. In harvest time work is all right and usually well paid for, but there are six months of winter to get through! and the Government is responsible to these men that should they get work even at a starvation wage they should protect them and see that they get it.

That this letter may be the means of "showing up" these "small contractors" and helping to avert what is a scandal to labor and a hurt to immigration is the sole object of.

Faithfully yours,
JAMES MCCORMICK.

CURING THE FILLER

THE Pharaoh filler I select in Manicaragua—Province of Santa Clara, Cuba, is generally harvested in February.

The plants are cut down at daybreak—allowed to remain until eleven o'clock in the morning—until they are properly wilted—then taken to curing houses for drying.

After they are thoroughly dried they are allowed to become moist through atmospheric humidity and then made into "hands." Four of these hands constitute a carat, eighty carats make a bale.

After allowing it to age for three full years, in order to develop its superb fragrance and aroma, I make it up into "Pharaoh."

That's why there is a taste and odor of genuine tobacco in my Pharaoh Cigar.

RUSSIAN RETREAT CUT OFF

Continued from page one

A Sign of Peace.

Bulletin Special.

Copenhagen, Denmark, March 11.—The Russian minister to Denmark started tonight for St. Petersburg. The authorities there desire to have the benefit of his knowledge of Japan, gained while he was Minister at Tokio. This is considered the first real sign of peace negotiations.

Oyama's Strategy.

Bulletin Special.

London, March 11. — Kurogakiho proposes, but Oyama disposes; that is the most obvious comment on the overwhelming disaster that has overtaken the Russian arms at the battle and rout of Mukden. The Russian general no doubt had his plans cut and dried for an irresistible attack on the Japanese lines on the flank as soon as the opening of spring might permit of the great forces at his command to be used favorably and who conditions might be more favorable for asserting his superiority in cavalry. He has been content to husband his strength for that browning effort, relying on the rigors of winter to check any immediate offensive movement on the part of his enemy. But he has again failed to appreciate their proper value, indomitable courage, energy and enterprise. For many weeks, two great lines of steel and blood have faced each other inert, stretching across mountain and valley and sprawling out into the western plain with only an occasional adventure to break the deadly monotony. Behind the Russian lines a constant stream of reinforcements have been swelling the gigantic field army. Behind the Japanese lines nothing but silence. Gripenberg made one determined effort to break through this veil of mystery, but he only added another to the list of minor disasters. Yet behind this seeming inertia, Marshall Oyama was planning with infinite care, the blow deemed to destroy the rising hopes of Russia. The daring of its conception has only been equalled by the perfection of its execution. "Courage," he cried, to his flanking troops, "at such and such an hour you shall be in Mukden." And he fulfilled his promise to the minute.

PERMANENT SIDEWALK TO BE CONSIDERED.

At the meeting of the council on Tuesday evening, Ald. McLeod brought up the timely question of a permanent sidewalk for Jasper avenue. Considerable discussion followed in which it developed that the present plank walk has outlived its usual time of service demanded of similar structures, having been down some eleven years. For some time the expense bill for repairs has been heavy and in the nature of things will increase from year to year. It was generally agreed upon that while the owners of the property to be benefited by the construction of a pavement to replace this walk should bear the major portion of the expense, part of it should be borne by the city at large. The question of ascertaining what this portion should be, was left with the streets and parks committee, who will bring in a report on the matter at an early date.

CURLING.

The ice on the rink is in excellent condition and the competitors in the single rink competition are requested to get their games played off at once. Two games were played yesterday afternoon. In the Blue Ribbon Cup, Dewar defeated Campbell, and the final for this cup was played off between Campbell and Galbraith and Galbraith won out.

The scores were:

WANTED.

GOOD AGENTS FOR THE Oliver Typewriter

IN ALL

UNOCCUPIED TERRITORY

Over 100,000 of these machines have been sold in the U.S. within the last few years at the same price which is being charged for any other standard typewriter. This proves conclusively that the OLIVER is the very best machine made regardless of price.

As there is now in Montreal a factory devoted exclusively to the manufacture of this machine, it can be bought in Canada for the same price at which it is sold in the U.S. without adding from \$25 to \$30 to cover duty and charges, as do all the other standard writers.

This should be a very attractive proposition to any purchaser of writing machines.

APPLY TO THE
CANADIAN OLIVER
TYPEWRITER CO.,
183A T. JAMES STREET,
MONTREAL.

OTTAWA SITUATION.

MAY BE RELIEVED SOON.

Leader of the Opposition Wants Information—Excitement Over the Hockey Games.

Bulletin Special.

Ottawa, March 10.—The Opposition leader made insistent demands for information as to the amendment of the autonomy bills, but without result. It is generally understood an agreement has been reached, but is not yet in shape. Fair progress was made today in routine business.

Great excitement exists over the Portage-Ottawa hockey matches. Every seat for Saturday's final game was sold at 10 o'clock last night. Seats now command up to five dollars.

Winnipeg Deputation Goes East.

Bulletin Special.

Winnipeg, March 11.—The deputation from the city council and Board of Trade, which is going to Ottawa to interview the Government regarding the extension of the boundaries of this province leaves for the east today. Mayor Sharpe represents the council and J. H. Ashdown and Andrew Strong the Board of Trade.

Brandon Next Meeting Place.

Bulletin Special.

Calgary, Mar. 11.—A.O.U.W. Grand Lodge adjourned until the next annual meeting. Invitations were presented by Bro. MacDonald in favor of Calgary, and Chief Kirkaldy, of Brandon. Brandon will be the next place of meeting.

Canadians Won

Bulletin Special.

Grand Forks, March 11.—The Manitoba University team, who came here in the international debate with American College men, won the contest tonight. The Canadians upheld protection.

Betting on the Game

Bulletin Special.

Ottawa, March 10.—For the struggle tonight for the possession of the Stanley Cup and hockey championship of the world between the Thistles of Rex Portage and Ottawa, the betting has been heavy and a big pile of money will change hands on the result. Supporters of the challengers are quite confident that they will be able to carry the cup away and they are backing their opinions to the limit. The Ottawas of course, are equally confident.

Smothered to Death

Bulletin Special.

Winnipeg, May 10.—Robert Brown, an Englishman, aged 24, met a horrible death today at a farm six miles northeast of Regina. He was working on a partially-frozen manure heap, when it collapsed and fell on him, smothering him to death. The whereabouts of his relatives are not known.

Willful Murder.

Bulletin Special.

Fort William, March 11.—The coronor's jury empanelled to investigate the death of Nick Potchenko, who was stabbed in the coal dock last Saturday, brought in a verdict of willful murder, by parties unknown.

Hanged for Murder of His Child.

Bulletin Special.

Toronto, March 11.—Alexander John Martin, who murdered his nine months old son by striking him on the head and throwing him into the water at Oakworth Cuf on August 3, paid the penalty of his crime on the gallows in the yard of the jail this morning. Rev. F. G. Heathcote stated that Martin had made a full confession of the murder, but had denied that he had struck the baby over the head, before throwing it into the water. On the scaffold Martin said, "You are hanging an innocent man."

INTERESTED IN EDMONTON.

The Edmonton delegates to Ottawa will formally report to the city council next week, and pending this report, decline to give out any lengthy statements for publication. They are unanimous, however, in speaking of the splendid manner of reception given them by the business circles of the cities with which they came in contact. Everywhere throughout the east exists a very real interest in Edmonton and a faith in its future. Especially was this found to be true in Montreal, where the delegates were introduced on the floor of the Board of Trade and were promptly put on by the newspaper men as likely and legitimate prey. This indicates that the reading public of the eastern metropolises are genuinely interested in the rising city of Edmonton.

Canadian Forestry Association.

The sixth annual meeting of the Canadian Forestry Association was held at the city of Quebec on the 9th and 10th March. The programme was as follows:—

Thursday evening—General business and the address of the President, Mr. Aubrey White, Assistant Commissioner of Crown Lands, for Ontario, "Forest fires in British Columbia," Professor R. W. Brock, Queen's University, Kingston, and Jas. Leamy, Crown Timber Agent, New Westminster. Thursday afternoon, "Forest Insects," Revd. T. W. Fyles, Lewis, "The Forest of New Brunswick," T. G. Loggie, Crown Lands Department, Fredericton, N.B., "The Fire Warden Service of Nova Scotia," Hon. J. W. Lookey, Commissioner of Crown Lands. Friday morning, "Forest Resources of Quebec," J. G. Langeller, Department of Lands, Mines and Fisheries, Quebec, "North Quebec and Labrador," Commander A. P. Low, of the Geological Survey, Ottawa, an address on "The Lumber Industry in Quebec" by Hon. W. C. Edwards, President of the Province of Quebec Limit Holder's Association. Friday afternoon a trip to Montmorency Falls. Friday evening, illustrated addresses by Dr. Judson F. Clark, Forester to the Ontario Bureau of Forestry, on "The Forest as a National Resource," and by W. H. F. Addison, on the Yale School of Forestry, on "A Forest School" On Thursday evening a dinner will be tendered the visiting delegates by the friends of the Forestry Association in the city of Quebec, at which addresses will be given by prominent men.

Several of the leading Foresters of the United States were present including Col. Fox, Chairman of the New York Forest, Fish and Game Commission, A. Knuchtel, Forester to the Commission, Dr. C. A. Schenck, Manager of the Vanderbilt Forest at Biltmore, Professor Filibert Roth, University of Michigan,

EDMONTON ALTA. CANADA
POPULATION. 7,500
CITY GOVERNMENT:
 Mayor, K. W. MacKenzie; Aldermen, C. May, K. A. McLeod, W. H. Clark, D. R. Fraser, J. R. Boyle, T. Bellamy, J. H. Picard, W. A. Griesbach.
Conveniences:—Waterworks, sewer systems, telephone system, electric lighting system, all owned and operated by the city.
Board of Trade:—President, J. H. Morris, Secretary, F. F. Tims.
Immigration Officer:—C. W. Sutter.
Educational Institutions:—Public and separate schools, high school, Alberta College.
CHURCHES:—Roman Catholic, Anglican, Presbyterian, Methodist, Baptist, German Baptist, Lutheran, Salvation Army.
TRAIN SERVICE:—Leaves for Strathcona 7.45 and 15.30. Arrives from Strathcona 9.15 and 11.50.

LOCAL

—Train on time.
 —Prospect Fine, not much change in temperature.
 —Tw thousand settlers for Alberta were expected in Halifax this week.
 —A Galician was fined \$10 yesterday by Dr. Wade, J. P., for carrying a knife.
 —The choir of McDougall church will sing at a concert at Belmont on Tuesday evening, March 21.
 —The Strathcona hockey team got away with the Wetaskiwin boys on Strathcona ice last night by a very large score.
 —The third game for the Stanley Cup will be played at Ottawa this evening. The returns will be posted at the premises formerly occupied by the Bank of Montreal.
 —The meeting of Edmonton Irishmen is postponed until Tuesday evening, 14th inst., at 8 o'clock, in the office of the Edmonton Express Co.
 —A general meeting of the officers and members of the Edmonton Operatic Society is called for Tuesday evening in All Saints' school room at 8.30 p.m., at which all are requested to be present.

—The preliminary trial in the Bradburn murder, which was to have been held today has been postponed. The trial is being postponed until the 14th inst. and J. C. A. Bowen for Mr. Holme.
 —The partnership which existed between Arthur Levasseur and Maurice Fitzgibbon has been dissolved, and the business on Assiniboia avenue will be conducted by Mr. Levasseur in future.
 —The two-year-old child of Mr. and Mrs. H. B. McMahon died early in the week at Prince Albert, where the family were visiting. The body was brought to the city yesterday and the funeral took place in the Edmonton cemetery.
 —Strathcona Chronicle: The Edmonton hockey team will have their hands full for the balance of the season, as Calgary, Olds, and our own team are fast after the silverware that club holds.

—The police are reported to be taking action against several Mormons at Raymond, on charges of polygamy. One man who brought two wives to Canada from Utah but who claims he has only lived with one since he was ordered to leave the country on penalty of prosecution.

—Mandate: To the friends of progress in Strathcona the vote on Saturday last was very gratifying, a little more so than was expected. The vote cast in favor of the waterworks and sewerage bylaw was almost unanimous, only three ballots out of one hundred and forty-four being marked against the measure.

—Calgary Alberta:—The city auditor has been busy engaged for some time in ferreting out the deficit which the city is up against and accounting for the same, as well as pointing out how some of this deficit can legally be put against the capital account which may be legally raised by by-law. He places the approximate deficit at \$63,302. In his conclusion he advises some radical changes in the method of accounting at the city hall.

—Moosejaw Signal:—The work of laying the sewer pipes on Manitoba street is proceeding under the direction of Mr. Fry. All the sewer pipes have now been received and the water pipes are arriving at regular intervals, so that it is expected that no delay will be occasioned through lack of material. The water pipes on Main street have been connected and the Main street service will be established as soon as the pumps are installed. It is probable, however, that the service will not be inaugurated before July 1. In the meantime hydrants will be installed in the main portion of the city, so that fire protection will be had as soon as the water is turned on.

Now is the time to be interested in a few carefully grown

SHADE TREES, HARDY SHRUBS, A NICE HEDGE, VINES ETC. FOR YOUR LAWN.

You should procure these grown in the north and have them selected for your dividing property by one experienced in this line in Alberta, and they should then be guaranteed to grow. We are in a position to give you suggestions and to fulfill these requirements.

Special prices this first season.

STRATHCONA AND EDMONTON.
 Leaves Edmonton for Strathcona: 7.30 and 9.30 A.M.; 1.30 and 3.45 P.M.
 LEAVE ORDERS AT H. W. B. DOUGLAS'S BAGGAGE TRANSFER.
 Phone 304 E. A. CUMMINGS.

—Ponoka Herald:—The Earlville Butter and Cheese Manufacturing Coy., Ltd., is the name of the new creamery which the people in the Concord settlement are about to erect. Mr. Marker was present at their meeting, held last week and it was decided, after hearing a statement from him, to have the necessary buildings erected. Application is now being made for amalgamation with the Butter and Cheese Manufacturing Association. A business committee has been appointed and teams have been engaged to haul the necessary lumber.

—Moosejaw Signal:—It would appear from reports that the Soo line district has been particularly favored with regard to weather conditions and the climate enjoyed by residents in this district is eclipsed by the banana belt a few miles south of us. Seeding has been pretty general at most points along the Soo line for some weeks past and a number of farmers have sown large areas of grain. In conversation with a farmer from the Rouleau district, a Signal reporter was informed that a great amount of seeding had already been done in his vicinity. He further stated that Mr. Dobson of Rouleau, had been cultivating his land all winter with an interruption of possibly two weeks. The frost had not entered the ground to any extent and did not appear to interfere with the work of the disc. Mr. Dobson has finished seeding over two hundred acres of land, having sown about 450 bushels of wheat.

PERSONAL.

B. C. Deasum came up from the Fort yesterday.

C. R. Stovel came in from Winnipeg last evening.

Prof. E. Odum, M.D., B.S.C., came in from Vancouver last evening and went south this morning. He is making a short tour of the West previous to proceeding to Europe, where he will spend a year.

Rev. D. G. McQueen returned from Vancouver on Thursday where he went to attend the meeting of the Home Mission Committee of the Synod of British Columbia.

G. C. Potter, editor of the Calgary Herald, will tour the Western States in the interests of the Western Canada Immigration Association.

CHURCH SERVICES.

McDougall Methodist.—The pastor, Rev. Chas. H. Huettner, will preach morning and evening. The morning subject will be "How the Bible Grew" and the evening's "God's Call." The Sunday school and adult Bible class meet at 3 p.m.

Grace Methodist (Kinsington avenue).—Mr. F. W. Cox will preach in the evening. There will be no service in the morning. The Sunday school meets at 3 p.m.

Rev. D. G. McQueen preaches morning and evening in the Presbyterian church. Sabbath school at 3 p.m.

At St. Joachim Father Ledue will conduct early mass. Father Jan will preach in English at High Mass and Father Hetu at evening service.

Pastor McDonald will conduct the services at the Baptist church morning and evening. The subject in the evening will be "Seeking and Finding."
